

LINE

```
graph TD; A[LINE] --> B[Second POINT of LINE]; B --> C((Point))
```

A vertical flowchart with three elements. At the top is a blue rectangular box with the word 'LINE' in black. A black arrow points down from this box to a white rounded rectangular box in the middle containing the text 'Second POINT of LINE'. Another black arrow points down from this middle box to a yellow circular node at the bottom containing the word 'Point'.

Second POINT of LINE

Point
